

# An Analysis of Women Empowerment in Various Fields in India

Nagappa L H

Department of women's studies (Guest Lecture), Karnataka University, Dharwad, India

**Abstract:** *The subject women empowerment has becoming brining issues over the entire world. Since last few decades women empowerment is a debatable subject at earlier time they were getting equal status with men in Vedic period. But they have faced in some difficulties during earlier period to since medieval in modern society many a time they were treated as slave. But 21th century their status has been changed slowly and gradually in society in women status. The Indian constitution gave the equal, liberal, political, social, economic, cultural, education, and other rights it's given to Indians the women's are leaders strongly demand equal a social position of women with men present scenario we seen the women occupied the respectable positions. Political, Social, Educational, Industrial entrepreneur and great leaders that's all. But women's are not absolutely free in the society because gender discrimination, caste, class, sexual harassment, society hierarchy, and labour discrimination more than less women's are able to establish their potentialities there for each and every should be protection to promote the women status.*

**Keywords:** women empowerment, 21<sup>th</sup> century woman's condition, constitution, social hierarchy, women problems, and emerging their life, women empowerment schemes etc.

## 1. Introduction

Women empowerment refers to increasing the spiritual, political, social, education, and economic strength of individual and communities of women. Women empowerment in India is heavily dependent on many different variable that include geographical location urban and rural, educational, social status, caste and class. The principle of gender equality in enshrined in Indian constitution in its preamble fundamental rights, fundamental duties and directive principle. The constitution not only great equality women but also empower state to adopts measure of positive discrimination in favor of women with the framework of democratic polity or laws development policies plans and programs have aim at women's advancement in different sphere. In recent years the empowerment of women has been unorganized has central issues. In determining the status of women on attempt to analysis the status of women empowerment in India is using various indicators like women's household, decision making power, financial participation acceptance of unequal gender role exposure to media women achievement towards the goal. However depends largely on the attitude of the people towards gender equability women empower is also defined has a change in the context women life which enable her increase capacity for leading fulfilling human life it gets reflected both in external qualities health, mobility, education and awareness, status in the family participation in decision making and also at the level of material security and internal qualities self awareness and self confidence.
